***CEGEP, a part of Québec's unique education system**

CEGEPs provide a stepping stone between secondary school and university. CEGEP is a French acronym that stands for *Collège d'enseignement général et professionnel*, known in English as a general and vocational college.

CEGEPs provide pre-university programs, leading to university studies, and technical career programs, which prepare students to enter the job market.

It's important to note that international students are not all required to go to CEGEP before applying for admission to a university in Québec.

Note :
The educational systems presented in this document represent regular paths leading to university studies, on the condition that exams are passed and that students are accepted in their respective programs.

Please visit the [educational institutions' websites](#) in Greater Montréal to learn more about the admissions requirements.
